

ABDUL BASITH

Flutter Developer

Hawalli, Kuwait | +965 6609 9743 | abbasith222@gmail.com | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Flutter Developer with strong hands-on experience in developing, deploying, and maintaining live production mobile applications. Experienced in building scalable Flutter apps with clean UI/UX, efficient state management, and secure API integration. Proven ability to translate business requirements into reliable mobile solutions while improving performance and user experience.

PROFESSIONAL EXPERIENCE

Flutter Developer – KPOST Couriers Co., Kuwait (Jun 2024 – Present)

- Developed, deployed, and maintained 2 live Flutter applications supporting daily internal operations
- Designed complex, responsive UI components using Flutter and Material Design guidelines
- Integrated REST APIs, handled secure authentication, and processed JSON data efficiently
- Applied GetX and Bloc for scalable state management and cleaner architecture
- Resolved bugs, reduced crashes, and optimized application performance and loading time
- Worked closely with backend teams and stakeholders to deliver stable production features

KEY PROJECTS

KPOST HR Management Application

Enterprise-level internal HR system designed to manage

employee attendance, leave requests, internal support tickets, and role-based dashboards. The application improved HR efficiency by digitizing manual processes.

Technologies: Flutter, Dart, REST APIs, Firebase, MySQL.

IT Asset & Inventory Management System

Centralized mobile solution to manage company IT assets across departments, track device assignments, monitor inventory status, and provide secure admin controls for updates and reassignments.

Technologies: Flutter, Dart, REST APIs, Firebase, MySQL.

TECHNICAL SKILLS

- Flutter & Dart for cross-platform mobile development
- State Management: GetX, Bloc
- REST API integration & Firebase services
- Databases: SQLite, Firebase Firestore, MySQL
- UI/UX: Material Design, responsive layouts
- Tools: Git, GitHub, Android Studio, VS Code

EDUCATION

Bachelor of Science in Information Technology (B.Sc IT)
Jamal Mohamed College, Tamil Nadu, India (2017 – 2020)
